## Server Routes

Request Type	Endpoint	Description
GET	<code>api/v1/pokemons/</code>	Get pokemons in batch 2 request <b>query</b> is required:  1) count - number of pokemon data to be queried 2) after - skips n amount of pokemons that do not need to be queried
GET	<code>api/v1/pokemon/:id</code>	Get a pokemon data by their IDs. Id is a required request <b>params</b> .  Will return 400 status code if no ID is provided or if there is no such pokemon with the same ID.
GET	<code>api/v1/pokemonimage/:id</code>	Get a pokemon image URL.  Id is a required request <b>params</b> .  Will return 400 status code if no ID is provided or if there is no such pokemon with the same ID.
POST	<code>api/v1/pokemon/</code>	Creates and inserts a new pokemon into the database  <b>Request body</b> must not be null otherwise 400 status code will be returned
DELETE	<code>api/v1/pokemon/:id</code>	Deletes a pokemon by their id - fetched from the <b>request params</b>  Will return 400 status code if no ID is provided or if there is no such pokemon with the same ID.
PUT	<code>api/v1/pokemon/:id</code>	Updates the <b>entire document</b> for existing pokemon with the id fetched from <b>request params</b>  Will return 400 status code if no ID is provided or if there is no such pokemon with the same ID.
PATCH	<code>api/v1/pokemon/:id</code>	Updates the <b>partial attribute</b> for existing pokemon with the id

		<p>fetches from <b>request params</b></p> <p>Will return 400 status code if no ID is provided or if there is no such pokemon with the same ID.</p>
--	--	--

# Sample Request

In the [Github link repo](#), there is a file named **thunder-collection\_A1.json** where it can be imported into Thunder Client extension of the Visual Studio Code to obtain the Routes Test for this assignment

Below will detail out more about the Test Collection

Test Name	Sample Request Body	Sample Response
getPokemons	<p>There is no request body sent alongside this test.</p> <p>Query params example: {{URL}}/pokemons?count=2&amp;after=10</p>	<a href="#">GetPokemons</a>
getPokemonById	<p>There is no request body sent alongside this test.</p> <p>Query params example: {{URL}}/pokemon/6338cc66b3eecf3cb2a36110</p>	<pre>{   "status": "Success",   "data": [     {       "name": {         "english": "Metapod",         "japanese": "トランセル",         "chinese": "铁甲蛹",         "french": "Chrysacier"       },       "_id": "6338c7f297a548e953a54dbd",       "id": "11",       "type": [         "Bug"       ],       "base": {         "HP": 50,         "Attack": 20,         "Defense": 55,         "Sp. Attack": 25,         "Sp. Defense": 25,         "Speed": 30       }     }   ] }</pre>
getPokemonImage	<p>There is no request body sent alongside this test.</p> <p>Query params example: {{URL}}/pokemonimage/6338c7f297a548e953a54dbd</p>	<pre>{   "status": "Success",   "imageLink":     "https://raw.githubusercontent.com/fanzeyi/pokemon.json/master/images/011.png" }</pre>

insertPokemon	<pre>{   "name": {     "english": "Test",     "japanese": "Test",     "chinese": "Test",     "french": "Test"   },   "type": [     "Bug"   ],   "base": {     "HP": 100,     "Attack": 100,     "Defense": 100,     "Sp.         "Sp. Defense": 25,
        "Speed": 30
      }
    },
    {
      "name": {
```

```

    "english": "Butterfree",
    "japanese": "ノバタフリー",
    "chinese": "巴大蝶",
    "french": "Papilusion"
  },
  "_id": "6338c7f297a548e953a54dbe",
  "id": "12",
  "type": [
    "Bug",
    "Flying"
  ],
  "base": {
    "HP": 60,
    "Attack": 45,
    "Defense": 50,
    "Sp. Attack": 90,
    "Sp. Defense": 80,
    "Speed": 70
  }
},
"status": "Success"
}

```

## Self-Graded Rubric

Checked checkbox means that I have the feature implemented

- ☒ GETting all the pokémons—missing count or after.
- ☒ GETting all the pokémons—improper values for count or after.
- ☒ GETting a pokémon.
- ☒ GETting a pokémon—pokémon not found.
- ☒ GETting a pokémon—improper key used to get a pokémon.
  
- ☒ POSTing a pokémon.
- ☒ POSTing a pokémon—improper data
- ☒ POSTing a pokémon—duplicate pokémon
  
- ☒ DELetting a pokémon.
- ☒ DELetting a pokémon—pokémon not found
  
- ☒ PUTting a pokémon.
- ☒ POSTing a pokémon—upsert
  
- ☒ PATCHing a pokémon.
- ☒ PATCHing a pokémon—pokémon not found
